

## Workshop on Sterile Neutrinos and on the Reactor (anti)-Neutrino Anomaly

T.U.M, 8th of February 2011

Location: Seminar room (basement) at the Universe Cluster (MPP)  
Boltzmannstr. 2, 85748 Garching

Pre-meeting point 8:45 entrance MPP, Garching  
(close to the U-Bahn exit U6)

Agenda:

9:00 Sterile neutrinos and short baseline oscillations - C. Giunti

10:00 New Reactor Antineutrino Spectra - D. Lhuillier

10:30 COFFEE

11:00 The Reactor Antineutrino Anomaly - M. Fechner

11:30 The Nucifer reactor project - T. Lasserre

12:00  $^{37}\text{Ar}/^{51}\text{Cr}$  calibration source in a large LS detector - M. Cribier

12:30 Sterile nu signature in Borexino - M. Wurm

13:00 LUNCH

14:30 SHORT CONTRIBUTIONS & DISCUSSION:

Sterile neutrino signature in IceCube - E. Resconi

Sterile neutrino signature at reactors with coherent scattering - A. Guetlein

The DANSS project - V.Egorov, A.Olshevskiy

Adhoc contributions & discussion
